

17-Aug-2022 Team Meeting

Date: 17th August

Time: 5:15 - 6:15pm

Location: Tutorial Room

Attendees:

- Edward
- Haoxin
- Ray
- Yifei

Agenda

- Questions to ask Luke:
 - Use cases - don't need to add exceptional flow? Keep working with our own use case for now?
 - Done and dusted - no more submission needed
 - "You must include the following patterns in your design and implementation" - must use all of them? Explain how we used them in the description?
 - Must use all of the patterns
 - Use diagrams to describe how they are used (e.g. Sequence diagram)
 - Do not need to explain why we use the patterns that are on the list
 - For unit of work + lazy load: need to explain why is it good for this use case - **YES**

Minutes

Decision for next part:

- Do not need to worried about heroku deployment, test the setting with postgresSQL
- No JSP contain on the server
- No dynamic client-side is neede, dynamic server and static client-side

Actions (TO DO)

- Taking note of usecaes in part1 once the mark is release and modify if needed
- Learn JSP and servlet
- Setup postgresSQL on Heroku
